

TEXAS COUNTY HAS 67 PEOPLE

(By Associated Press)
DALLAS, Texas, Sept. 16.—Cochran county, Texas, which gained two inhabitants in the last 19 years, and now has a population of 67, according to figures announced by the United States census bureau for 1920, dates its history back to the early settlement of West Texas, and has less than one inhabitant for every square mile.

The first census of the county was taken in 1900, when enumerators succeeded in finding 25 residents, during the next 10 years the county had a phenomenal growth from 25 to 65 inhabitants, or 160 per cent, but the "boom" petered out in the next 10 years and but two more people were added to the total.

Cochran county was formed in 1874 from another large county which was known to the east of it. It is situated on the Texas-New Mexico line and was named for Robert Cochran, a pioneer man, who settled what is now Cochran county, and opened a frontier store before the Civil war. Cochran is the only settlement in the county, and is reached by a small railroad from New Mexico. Big ranches occupy most of the county. There is no county organization, and not even a postoffice in the county.

ARMENIANS ENLIST IN MARINE CORPS

WASHINGTON, D. C., Sept. 16.—Undersecretary government machinery gave way to sentiment today when Major General John A. Lejeune, commandant of the marine corps, authorized the re-enlistment in Los Angeles of two Armenians who served in the A. E. F. Peter Mosgol and Parsent Normanian, for the purpose of joining the marines on the U. S. S. Chattanooga, now at Constantinople, in order that they might locate their relatives in the near east.

PLAN ELIMINATION OF GRADE CROSSINGS

(By Associated Press)
LOS ANGELES, Cal., Sept. 17.—Plans for elimination of more than 20 grade crossings in Los Angeles, used in some cases for several roads, are being considered by railroad and municipal authorities. More than a thousand trains are operated over the crossings.

HERO DOG DIES IN LOS ANGELES

(By Associated Press)
LOS ANGELES, Cal., Sept. 17.—Rufus, a Newfoundland dog, which saved many men from death in the hot, sandy wastes of Death Valley, is dead.

Rufus guided scores of wanderers across the desert. He searched the valley for lost men and guided many to safety. Several hundred guideposts which mark paths across the sand are really monuments to the achievements of Rufus.

He toured the United States on lecture tours with Lou Westcott Beck, explorer. His deeds were chronicled in many newspapers; his pictures published in many magazines.

Beck died three years ago and Rufus retired to a home for homeless animals in Pasadena. There he was forgotten until his death brought to the minds of those he served and saved remembrance of his service.

CHILE EXPORTS MUCH FERTILIZER

(Correspondence of Associated Press)
VALPARAISO, Chile, Aug. 23.—Foreign demand for nitrate of soda, chiefly used as fertilizer, is expected to amount to 3,000,000 tons during the nitrate year, which began in July, reports to U. H. Jones, president of the Association of Nitrate Producers. Production of nitrate is this country's most important industry.

Importance of the industry as a national asset is shown in a recent report of the ministry of the treasury, which estimates that from 1880 to 1915 the amount received by the government in export duties and from sales of land was approximately \$1,000,000, or slightly more than 44 per cent of the nation's total revenue. Nearly 50,000 workmen are employed in the nitrate regions during the season of normal production.

NEW PLAN FOR BUYING HOMES

(By Associated Press)
LOS ANGELES, Cal., Sept. 17.—Methods used in aiding employees to buy Liberty bonds during the war are to be utilized to aid them in building homes as the leading phase of a housing scheme under consideration by the Los Angeles railway, according to announcement by G. J. Khurts recently.

The plan contemplates the setting aside of a fund of \$150,000 to be loaned to employees at a low rate for home building, the loans to be repaid to small deductions from the employees' pay checks. Mr. Khurts said the plan is the leading phase of a housing scheme where accommodations will be available for the company's employees at low rents. A part of this latter phase was completed some time ago. The new buildings, it is expected, will be built within convenient distance of the company's major car barns.

AERIAL PARTIES ARE LATEST FAD

(By Associated Press)
LOS ANGELES, Cal., Sept. 17.—The "trolley parties" of years ago, when electric street transportation was a new thing, are finding an echo in "aerial parties" here. A commercial aviation company which operates in this section is using large newspaper spaces to advertise its "aerial limousines" as conveyors for these affairs.
